

# Transforming Businesses with Creative Design & Development

FRAMEONIX STUDIO

**Vraj Bhandari**  
Marketing & Sales

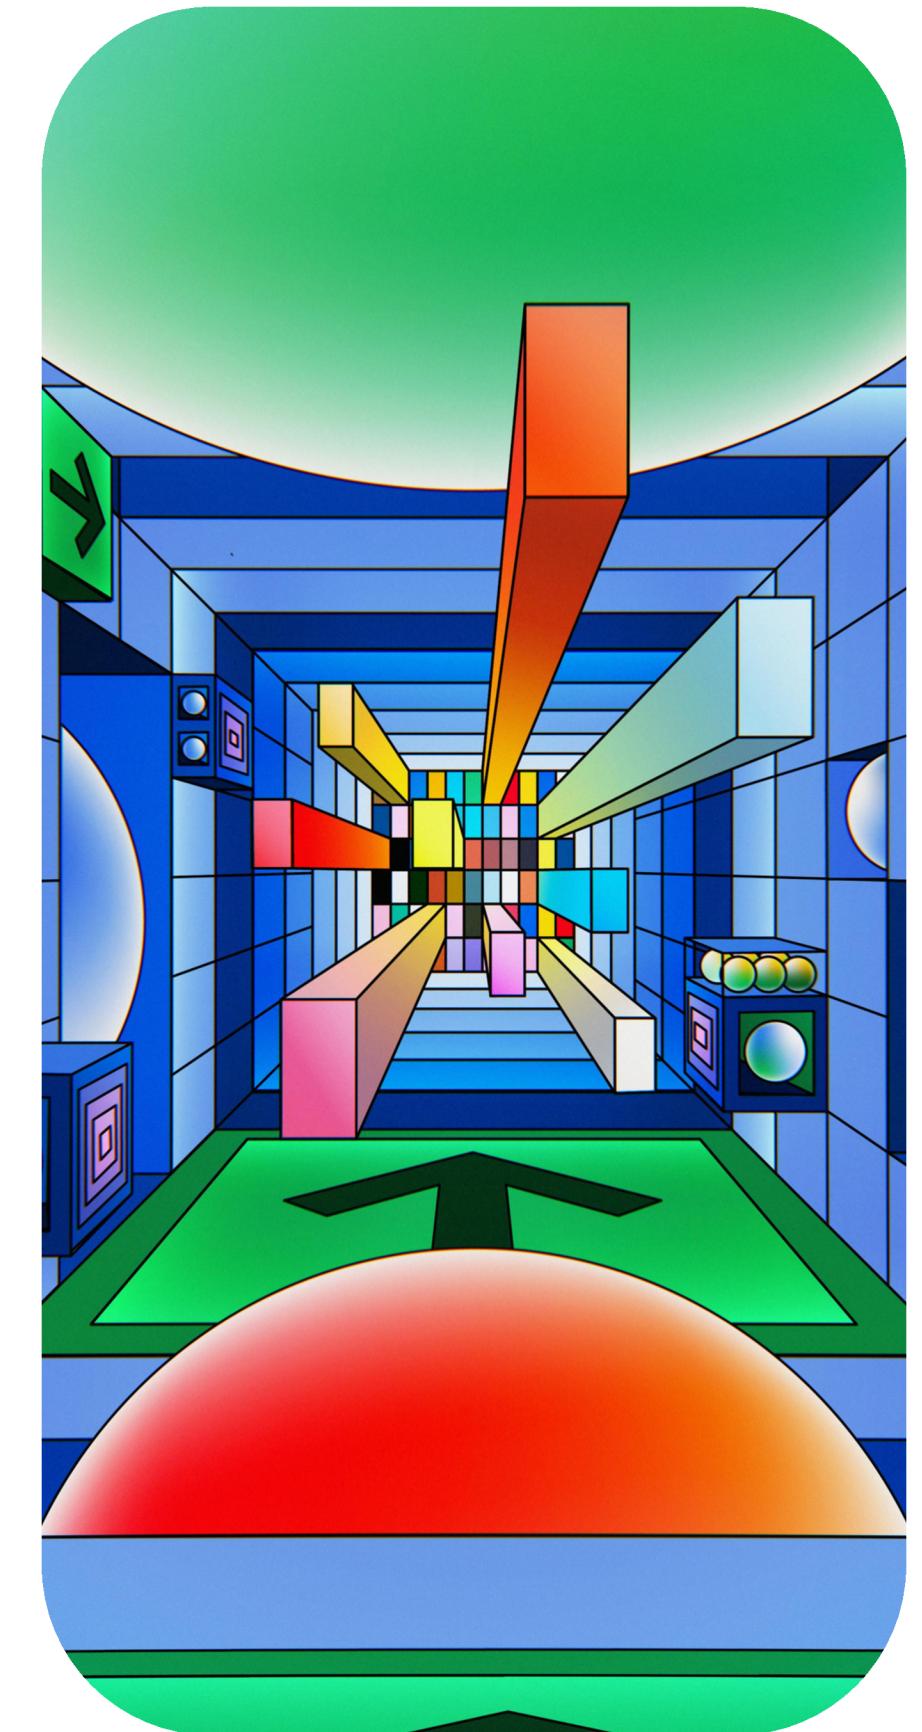

# Introduction

Frameonix Studio is a full-service web design and development agency, founded by three friends with a shared passion for building exceptional digital experiences.

15+

completed projects across SaaS, e-commerce, and creative industries, we combine design thinking with technical expertise to help brands grow online.

# Our **Commitment** to Creative Solutions

Frameonix Studio was started by three friends who met in university and bonded over their love for technology, design, and solving real-world problems.

Together, we've built a collaborative agency that thrives on creativity, innovation, and teamwork.

## FOCUS

User-centric design, robust development, and measurable business outcomes.

## APPROACH

Agile, collaborative, and transparent process.

# Our Work - Case Studies

## Project Overview

Huly is an open-source, all-in-one productivity platform combining project management, chat, documentation, and virtual office features.

## Objectives

Design and develop a modern web presence to showcase Huly's robust functionality and collaborative tools.

## Our Solution

- Brand identity, motion design, web design, and development.
- Built with React, Next.js, TypeScript, TailwindCSS, and integrated automated workflows with n8n.
- Complex animations for an engaging user experience.

## Results

- Clear, intuitive navigation for feature-rich platform.
- Increased user engagement and sign-ups.
- Set a new design benchmark for SaaS platforms.

# Our Work - Case Studies

## Project Overview

Wope is an advanced SEO analytics and rank tracking platform for digital marketers and agencies.

## Objectives

Create a data-driven, user-friendly website to communicate Wope's analytics capabilities.

## Our Solution

- UI/UX design focused on clarity and actionable insights.
- Custom dashboards and reporting interfaces.
- Seamless integration of real-time data visualization.

## Results

- Improved user onboarding and retention.
- Helped clients like Pizza Hut achieve a 67% boost in keyword rankings through actionable insights.

# Our Work - Case Studies

## EverAfter<sup>®</sup>

### Project Overview

EverAfter provides AI-powered customer hubs to help SaaS companies scale customer success.

### Objectives

Design a branded, intuitive interface to guide customers through onboarding and engagement.

### Our Solution

- Personalized customer journeys and dashboards.
- Embedded progress tracking and automated milestone updates.
- Integrated with existing tech stacks for seamless workflows.

### Results

- Tripled feature adoption and renewal rates.
- Clients like Tastewise eliminated manual processes, saving hours per customer.

# Our Work - Case Studies

## Play

### Project Overview

Play is a mobile-first design and prototyping tool for product teams.

### Objectives

Showcase Play's native prototyping capabilities and attract creative professionals.

### Our Solution

- Designed case study-driven blog and resource pages.
- Highlighted real-world use cases (e.g., Craft app) with immersive visuals.

### Results

- Increased engagement from product designers.
- Enhanced brand authority in the design tool space.

# Our Work - Case Studies

## YUGA STUDIOS

### Project Overview

Yuga is a creative agency specializing in digital branding.

### Objectives

Develop a visually striking website to reflect Yuga's creative ethos.

### Our Solution

- Bold, interactive layouts with custom animations.
- Portfolio-driven navigation to showcase client work.

### Results

- Higher client inquiries and improved brand perception.

# Our Work - Case Studies

## Project Overview

Status is a secure messaging and crypto wallet app.

## Objectives

Present Status's privacy-first messaging and crypto features in a modern, accessible way.

## Our Solution

- Designed landing pages with clear CTAs and trust signals.
- Developed interactive feature demos.

## Results

- Boosted downloads and user trust.

# Our Work - Case Studies

## KidSuper Studios

### Project Overview

KidSuper is a fashion and creative collective.

### Objectives

Create an immersive e-commerce and brand experience.

### Our Solution

- Designed playful, artistic layouts to match KidSuper's brand.
- Integrated e-commerce and interactive lookbooks.

### Results

- Increased online sales and global brand reach.

# Our Work - Case Studies

## COLLIDER

### Project Overview

Drink Collider is a beverage brand with a focus on bold flavors.

### Objectives

Launch a visually impactful e-commerce site to drive sales.

### Our Solution

- Designed vibrant product pages and brand storytelling.
- Integrated smooth checkout and mobile optimization.

### Results

- Increased conversion rates and brand engagement.
